

2023 SmokeGENIE

FEATURES AT A GLANCE

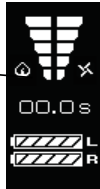

The 2023 version SmokeGENIE is very focused on **DURABILITY & POWER**, perfect for filmsets. All mentioned upgrades are now **SHIPPED BY DEFAULT** in the new PRO KIT.

1. SHOCKPROOF CHAMBER

New chamber made of heat resistant Polymer, Now SHOCK-proof and SHATTER-Proof.

2. (PRO) GENIE UPGRADE

Performance enhancements in NORMAL MODE: all 5 levels are now adjusted to support Continuous bursts. (previously only level 3 or lower)

All new PRO MODE: 10 Levels of both Smoke and Wind, allowing much higher output and more precise control in smoke.

INTERFACE IMPROVEMENTS: A new Redrawn Start Screen and "Tank Faulty" Screen for more user clarity.

NEW indicator red light in bottom of machine: useful for Pairing With Magic Remote.

5. OTHERS

Improved REFILL BOTTLE:

-The tip of the refill bottle is made slightly narrower to reduce spillage.

Improved STORAGE CAPSULES for Chamber:

-A tougher design that gives a tighter seal around the edges.

ALL NEW exterior Coating

-Easier to Clean and more scratch Resistant.

3. ALL NEW RC HAZE FAN + FAN DOCK

Brand new design with better mounting and Remote Control.

NEW "Fan dock" that attaches the fan on to the SmokeGENIE, allows single-hand convenient operation.

Also added extra 1/4" mounting option.

All haze fans now also work with the Magic remote (see below) Users can control BOTH Fan + SmokeGENIE together using the same trigger.

4. MAGIC REMOTE

Now included in all Pro Kits:

A special remote with 4 channels, allows the user to easily assign up to 10 machines per button trigger.

It opens up to many new possibilities,

For example controlling Fan+Genie, Multi-unit control, etc.
